Report on mentor mentee report 2020-2021

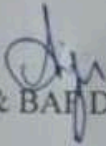

BMS BAF DEPT

There are 99 students in FY BMS program and 59 Students in FY BAF program. Number of full time faculties is four. The students were equally assigned to the full time teachers as mentees. Mentor mentee ratio is 40:1.

Mentoring activities were conducted online on Google meet, or on phone calls or on whatsapp groups, as was convenient for students.

Mentors mentored students during online internal and external exams, settled their queries during online teaching, and addressed their problems which included personal issues during pandemic. They were also guided on career options available.

They were mentored on Covid protocols.

DEPARTMENT OF ACCOUNTANCY

Remedial and Intensive Coaching Plan

During The Academic Year 2020-21

- Assignments were given to students.
- Past years question papers were provided for practice.
- MCQ were provided for practice in Google Form.
- Providing One/Two Line Answers question banks.
- Provided notes on Google Site.

ACTIVITY REPORT

ACADEMIC YEAR 2020-21

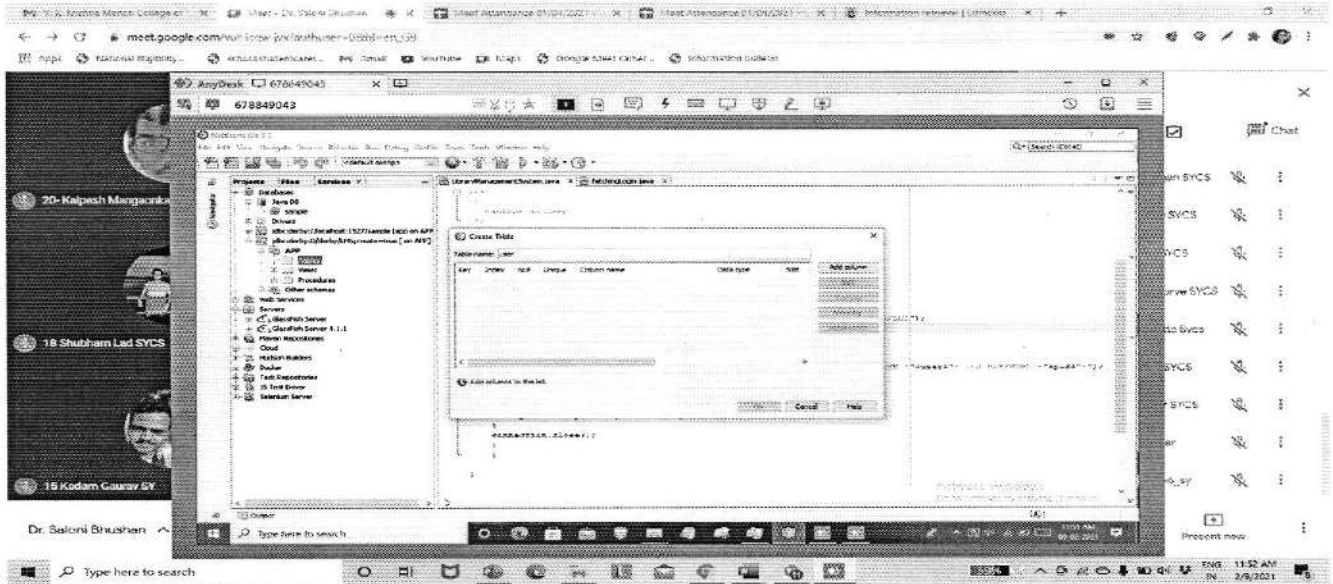

1. **Department / Committee**– Computer Science
2. **Title/ Theme of the program** – Remedial coaching
3. **Date /Time/Venue** -Throughout the academic year(2020-21), Mode: Google Meet
4. **Level of the Activity** –Class level
5. **Number of participants** –TYCS(49),SYCS(63)
6. **Details of Teachers** : Dr. Saloni Bhushan
7. **Program Objective:** To help the students overcome their course level difficulties faced in their academics.
8. **Program Outcome** :
 - a. To learn and understand the course in better way.
 - b. To prepare them for exams.
9. **Activities conducted:**
 - a. Students were assigned topics for presentation after completion of units for revision. Good points and the corrections in the presentations are discussed with the students.
 - b. MCQ test series are conducted to prepare the students for examination.
10. **Documents maintained** –Snapshots, Attendance Sheet , grade sheet.

- Zeroth law of thermodynamics is _____
- The physical quantity that relates with first law of thermodynamics is _____
- A system in thermodynamic equilibrium must satisfy the following requirement _____
- Internal energy of a real gas depends upon _____
- An adiabatic process occurs at constant _____
- In Carnot cycle the first step is _____
- The efficiency of the Carnot engine working between steam point and ice point is _____
- The efficiency of a Carnot engine working between 127°C and 27°C is _____
- The gas law $PV/T = \text{constant}$ is true for _____
- In a Carnot cycle the working substance receives heat at a _____ temperature
- In a Carnot cycle the working substance is _____
- In an isothermal process _____
- In an adiabatic compression the decrease in volume is associated with _____
- A Refrigerator is _____
- The Carnot ideal heat engine consists of _____
- The Carnot cycle has the following processes _____
- A Carnot cycle is a _____
- The form of energy that produces a feeling of hotness is called _____
- Thermodynamic temperature scale in S.I. System is _____
- In a reversible adiabatic process entropy _____
- Which of these is intensive variable?
- The change in entropy of a mole of an ideal gas, when the gas undergoes free expansion is _____
- Entropy remains constant in _____
- The unit of entropy is _____
- A piece of ice is added to water in a cup. The entropy _____
- When water vapour condenses into water, its entropy _____
- Entropy is a measure of _____
- Entropy is maximum in which state _____
- Which of the following represents a reversible process?
- In the two gases at the same temperature _____
- When 10 grams of ice at 0°C is converted into water at the same temperature when the latent heat of ice is = 80 cal/gram then the change in entropy is _____
- When 100 gram of water is heated from 10°C to 90°C, find by how much does the entropy of water change? Given specific heat of water $S = 1 \text{ cal/gram-K}$
- "It is impossible for a self-acting machine working in a cyclic process, unaided by external agency, to transfer heat from a body at a lower temperature to a body at a higher temperature". This statement is _____
- No engine can be more efficient than perfectly reversible engine working between the same two temperatures. This is _____
- The total entropy change for a system and its surroundings increases, if the process is _____
- The important property of entropy is _____
- In a reversible process, the entropy of the system _____
- The physics underlying the working of a refrigerator closely resembles the physics underlying _____
- The entropy of a system at absolute Zero is typically _____

- The entropy of the universe always _____
- In a heat engine the ratio of the net work done by it to the heat absorbed during one complete cycle is called _____
- Which of the following law incorporates law of conservation of energy.
- Carnot engine is perfectly reversible and can be operated in the reverse direction also. Then it works as a _____
- Choose the correct Statement:
- The change in entropy when 5 Kg of water at 100° C is converted into steam at the same temperature when the latent heat of steam is 540 cal/gram is _____
- Which of the following variables controls the physical properties of a perfect gas ?
- Gases have _____
- A reversible heat engine can be 100% efficient if the temperature of the sink is _____
- Due to increase in entropy unavailable energy increases, this result is called _____
- According to kinetic theory of gases, the absolute Zero temperature is attained when _____

- If divergence theorem is to be applied to a cube situated at the origin. To how many faces of a cubes it will be applied?
- Gauss divergence theorem is used for converting _____
- In cylindrical coordinates system range of coordinate r is _____
- An electric field is given as $E = 6y2z \mathbf{i} + 12xyz \mathbf{j} + 6xy2 \mathbf{k}$. An incremental path is given by $d\mathbf{l} = -3 \mathbf{i} + 5 \mathbf{j} - 2 \mathbf{k}$ mm. The work done in moving a 2mC charge along the path if the location of the path is at $p(0,2,5)$ is (in Joule)
- A field in which a test charge around any closed surface in static path is zero is called _____.
- The potential in a lamellar field is _____
- Line integral is used to calculate _____
- Surface integral is used to compute _____
- Find the value of divergence theorem for $A = xy2 \mathbf{i} + y3 \mathbf{j} + y2z \mathbf{k}$ for a cuboid given by $0 < x < 1$, $0 < y < 1$ and $0 < z < 1$.
- The ultimate result of the divergence theorem evaluates which one of the following?
- Find the value of divergence theorem for the field $D = 2xy \mathbf{i} + x2 \mathbf{j}$ for the rectangular parallelepiped given by $x = 0$ and 1 , $y = 0$ and 2 , $z = 0$ and 3 .
- Using polar coordinates, find the volume of the cylinder with radius a and height h .
- To find volume _____ can be used.
- What is the volume of a cube with side a ?
- The volume element in Cylindrical Coordinate system is _____.
- A conservative vector field is a vector field F whose line integral $\int F \cdot ds$ over any curve C depends only on _____.
- The volume of a sphere of radius $3R$ is _____.
- If $r > 0$, $0 < \Phi < 2\pi$ and $0 < \theta < \pi$ then they represent _____ coordinates.
- The coordinates of point P in Cylindrical coordinates system are _____
- The name curvilinear coordinates, coined by the French mathematician _____.
- The stoke's theorem uses which of the following operation, _____.
- Find wheter the vector is solenoidal $E = yz \mathbf{i} + xz \mathbf{j} + xy \mathbf{k}$
- The relation of cylindricalcoordinate system to cartesian coordinate system for 'X' cordinate is _____
- "The integral of a derivative over an interval is given by the value of the function at the end points". This is the statement of which fundamental theorem.
- Example of Spherical polar coordinate system is _____.
- A charge located at point $A(9,250,4)$ is said to be in which coordinate system.
- The relation of cylindricalcoordinate system to cartesian coordinate system for 'Y' cordinate is _____
- The range of azimuthal angle Φ in spherical polar coordinates is _____.
- The unit vectors \hat{r} , $\hat{\Phi}$, \hat{z} of spherical polar coordinate system are _____.
- In spherical polar coordinate system the unit vectors always _____.
- In spherical coordinate system the polar angle is represented by _____.
- The relation of spherical polar coordinate to cartesian coordinate system for 'Y' cordinate is _____
- In spherical polar coordinates system, the ' θ ' angle is drawn from the which axis _____.
- Azimuthal angle ' Φ ' is the angle around from the _____.
- The correct order of coordinates in cylindrical coordinate system is _____.
- In Spherical polar coordinates system unit vectors are _____.
- Which of the following theorem uses curl as a operator?

- In a spherical polar coordinated of a point are $(r, \Phi, \theta) = 10, 300, 600$. Find the cartesian coordinates of the same plane?
- Find the divergence theorem value for the function given by $(e^2, \sin x, y^2)$
- The Stoke's theorem can be used to find which of the following?
- The mathematical perception of the gradient is said to be _____.
- Divergence of gradient of a vector function is equivalent to _____.
- Curl of gradient of a vector is _____.
- The gradient can be replaced by which of the following?
- The curl of a curl of a vector gives a _____.
- The line integral or path integral along some selected curve of a derivative is given by the value of the function at the boundries (a,b). This is the statement of _____.
- Which theorem allows i) to interpret curl as vector source of field & ii) transform surface integral into line integral and vice-versa.
- The essence of divergence theorem is integral of faucets within the volume is equal to _____.
- The pressure inside a piston cylinder is a variable of _____.

- A transistor has _____.
- The value of current amplification factor β of transistor is generally _____.
- The arrow in the symbol of a transistor indicates the direction of _____.
- The most commonly used semiconductor in the manufacture of a transistor is _____.
- The phase difference between the input and output voltages in a common base arrangement is _____ degree.
- In which transistor configuration output impedance is high?
- For better amplification collector base junction is biased in _____.
- In a transistor, signal is transferred from a _____ circuit.
- From following configurations, which configuration is used for obtaining high voltage gain _____.
- An ideal value of stability factor is _____.
- The operating point is also called as _____.
- The disadvantage of voltage divider bias is that it has _____.
- The point of intersection of d.c. and a.c. load lines represents _____.
- Operating point represents _____.
- For germanium transistor amplifier, VCE should _____ for faithfully amplification.
- If the temperature increases, the value of V_{BE} _____.
- Thermal runaway occurs when _____.
- The circuit that provides the best stabilisation of operating point is _____.
- The stabilisation of operating point in potential divider method is provided by _____.
- The lower and upper cut off frequencies are called as _____ frequencies.
- Generally voltage gain of amplifier is expressed in _____.
- The ear is not sensitive to _____.
- If the power level of an amplifier reduces to half, the db gain will fall by _____.
- The function of bypass capacitor in CE amplifier is to bypass _____.
- If bypass capacitor CE is removed, the voltage gain of the amplifier is greatly _____.
- The frequency response of CE amplifier, where gain remains almost constant is called as _____.
- 1 bel = _____.
- The gain of the amplifier with feedback is known as _____ gain.
- A feedback circuit usually employs _____ network.
- When negative voltage series feedback is applied to an amplifier, its input impedance _____.
- If the voltage gain of an amplifier without feedback is 10 and with negative feedback is 5, then feedback fraction is _____.
- The output impedance of an emitter follower circuit is _____.
- Emitter follower is used for _____.
- The upper and lower cut off frequency is also called as _____ frequency.
- Emitter follower is also known as _____.
- It is most necessary to control signal to noise ratio at _____.
- For negligible loading effect, input resistance R_i of an amplifier should be very _____ and source resistance should be _____.
- When negative voltage feedback is applied to an amplifier, its voltage gain _____.
- The value of negative feedback fraction is always _____.
- An amplifier has a current gain of 240 and input impedance of $15K\Omega$ without feedback. If negative current shunt feedback is 0.015 is applied, what will be the input impedance of the amplifier?
- If the power and current gains of a transistor amplifier are 8250 and 50 respectively in a single stage transistor amplifier, then voltage gain is _____.

- If R_C and R_L represent the collector resistance and load resistance respectively in single stage amplifier, then a.c. load is _____.
- When transistor amplifier is operating, the current in any branch is _____.
- The output resistance of an amplifier R_0 should be so _____ to make the output voltage independent of the load resistance.
- If the collector supply is 10V, then collector cut off voltage under d.c. conditions is _____.
- The purpose of coupling capacitor in transistor amplifier is to _____.
- An amplifier has a power gain of 100. Its db gain is _____.
- In a base resistor method, if the value of β changes by 50, then collector current will change by a factor of _____.
- When the temperature changes, the operating point shifted due to _____.
- In voltage divider bias, $V_{CC} = 25V$; $R_1 = 10K\Omega$; $R_2 = 2.2K\Omega$; $R_C = 3.6 K\Omega$ and $R_E = 1K\Omega$. What is the emitter voltage?

- The electronic circuit that generates periodic waveform on its output with only dc supply as an input is called as _____ .
- An oscillator produces _____ oscillations so long as the dc power source is connected.
- An oscillator requires only _____ source for its working.
- For positive feedback in amplifier feedback factor β is _____ .
- The total input after positive feedback in amplifier _____ .
- The gain of the amplifier with positive feedback _____ .
- When βA_v becomes equal to unity, the gain A_{vf} becomes _____ .
- An oscillator is an amplifier which uses _____ feedback.
- In an amplifier with positive feedback if $\beta A_v < 1$ then it produces _____ oscillations
- In an amplifier with positive feedback if $\beta A_v > 1$ then it produces _____ oscillations
- In an amplifier with positive feedback if $\beta A_v = 1$ then it produces _____ oscillations
- The condition _____ is called 'Barkhausen criterion' for sustained oscillations.
- The total phase shift around feedback loop should be an integral multiple of _____ for sustained oscillations.
- The CE amplifier provides a phase shift of _____ between its input and output.
- One RC-leg with proper selected values of R and C can provide about _____ phase shift.
- In phase shift oscillator, three RC legs together produces a total phase shift of _____ .
- How many RC-legs are present in RC-phase shift oscillator?
- In the phase shift oscillator, to fulfill the condition $\beta A_v \geq 1$, the amplifire gain must be more than or at least _____ .
- In Colpitt's oscillator the feedback fraction is _____ .
- In Colpitt's Oscillator the minimum value of amplifier gain for maintaining sustained oscillations is _____ .
- The radio frequency choke (RFC) has a _____ impedance at radio frequency.
- The radio frequency choke (RFC) provides _____ impedance to dc.
- If two capacitors of capacities C1 and C2 are connected in series then the resultant capacity is _____ .
- In the Hartley's oscillator the feedback factor is _____ .
- In Colpitt's oscillator if $C_1 = 0.002 \mu\text{F}$ and $C_2 = 0.02 \mu\text{F}$ then feedback fraction β is _____ .
- In Hartley's oscillator if $L_1 = 2 \text{ mH}$ and $L_2 = 4 \text{ mH}$ then feedback factor β is _____ .
- What does IC stands for in electronics?
- The differential gain or open loop gain, A_d of an ideal Op-amp is _____ .
- The common mode gain, A_{CM} of an ideal Op-amp is _____ .
- The common mode rejection ratio, $CMRR$ of an ideal Op-amp is _____ .
- The input resistance, R_i of an ideal Op-amp is _____ .
- The output resistance, R_o of an ideal Op-amp is _____ .
- The output offset voltage, V_{oo} of an ideal Op-amp is _____ .
- The slew rate, SR of an ideal Op-amp is _____ .
- The bandwidth of an ideal Op-amp is _____ .
- The gain of an inverting amplifier using Op-amp is _____ .
- An inverting amplifire using Op-amp has an input resistance $R_i = 500 \Omega$ and feedback resistor $R_f = 5 \text{ K}\Omega$. Determine the gain.
- The gain of a non-inverting amplifier using Op-amp is _____ .
- A non-inverting amplifire using Op-amp has an input resistance $R_i = 500 \Omega$ and feedback resistor $R_f = 5 \text{ K}\Omega$. Determine the gain.
- The gain of an inverter using Op-amp is _____ .

- If 6 V is given to input of an inverter using Op-amp then its output will be _____ .
- The gain of a voltage follower using Op-amp is _____ .
- If 8 V is given to input of a voltage follower using Op-amp then its output will be _____ .
- If a square wave (high frequency) is given to input of an Integrator using Op-amp then its output will be _____ .
- If a triangular wave (low frequency) is given to input of a differentiator using Op-amp then its output will be _____ .
- If a sine wave (low frequency) is given to input of a differentiator using Op-amp then its output will be _____ .
- If V_c is the voltage across capacitor of capacity C and Q is the charge stored on it then V_c is _____ .
- If V_c is the voltage across capacitor of capacity C then the capacitor current i_c is _____ .
- If inverting input voltage is greater than non-inverting input voltage for a comparator using Op_ amp then its output is _____ .
- If non-inverting input voltage is greater than inverting input voltage for a comparator using Op_ amp then its output is _____ .
- A comparator using Op-amp has non-inverting voltage 1 V and if a low frequency sine wave of 8Vp-p is given to inverting input then its output will be _____ .

- In _____, the topmost band is completely filled and the next upper band (conduction band) is well separated from the lower band.
- The energy gap in insulators ($E_g = E_c - E_v$) is of the order of several electron volts _____
- At temperature greater than 0 K, the electrons in valence band get excited and move into the conduction band. It comes under _____
- In intrinsic semiconductor, the number of electrons in conduction band will be _____ to the number of holes in valence band.
- In case of semiconductors, electrons as well as holes are charge carriers, both contribute electric current. Then the conductivity of semiconductor is,
- Conductors are metals and alloys their resistivity ranges are _____
- In semiconductor, The resistivity in the range of _____
- The protons and neutrons in nucleus also have their spins but the overall magnetic moment due to their spin is much smaller than that for _____.
- The full form of NMR is _____
- Which of the following parameter is used to assess the magnetic ability of a material?
- For a diamagnetic material, which of the following statement is correct?
- For a paramagnetic material, which of the following statement is correct?
- For a diamagnetic material, which of the following statement is correct ($\mu_r =$ relative permeability)?
- What is the curie temperature of iron (in kelvin scale)?
- With an increase in temperature, magnetic susceptibility of a ferromagnetic material _____
- With an increase in the area of hysteresis curve, power loss will _____
- The magnetic materials follow which law?
- In which materials the magnetic anisotropy is followed?
- Piezoelectric effect is analogous to which phenomenon?
- The susceptibility is independent of temperature in which material?
- Units for magnetic flux density _____
- Magnetic permeability has units as _____
- Example for dia-magnetic materials _____
- Example for anti-ferro-magnetic materials _____
- Which of the following indicates the correct set of combination in radio waves?
- Which of the following is true?
- Which magnetic have negative susceptibility?
- Which among the following is a dielectric?
- When light passes through one medium to another _____
- Dielectric materials are basically,
- Optical mechanical scanner is used in which type of electromagnetic waves?
- Piezoelectric effect is when materials produce electric charges when _____
- The absorption of photons in a photodiode is dependent on _____
- The piezoelectric materials used for converting energy are called as _____
- Piezoelectricity is shown by substances which are _____
- How can a dielectric be converted to a conductor?
- The bending of light as it passes from one medium to another is called
- 'Refractive index' is equal to
- Which of the following statements is true for a dielectric?
- Dielectric materials do not have
- Dielectric materials are basically
- Which of the following has a minimum wavelength?

- Which of the following are not electromagnetic waves?
- The refractive index of water is _____
- The absorption coefficient of semiconductor materials is strongly dependent on _____
- In electromagnetic spectrum , compared to visible light , the X-rays have _____
- The conductivity of semiconductor is almost independent in a range of temperatures in case of _____
- The magnetic moment of any electron is always _____
- Below curie temperature, _____
- The refractive index of cladding is _____ than the refractive index of core.

- Perform multiplication of the binary numbers: $01001 \times 01011 = ?$
- On multiplication of (10.10) and (01.01), we get _____
- Any signed negative binary number is recognised by its _____
- The decimal equivalent of the binary number $(1011.011)_2$ is _____
- The largest two digit hexadecimal number is _____
- The parameter through which 16 distinct values can be represented is known as _____
- Convert hexadecimal value 16 to decimal.
- Convert the following binary number to decimal. 01011
- If a typical PC uses a 20-bit address code, how much memory can the CPU address?
- Which is typically the longest: bit, byte, nibble, word?
- Convert decimal 64 to binary.
- The decimal number 188 is equal to the binary number _____.
- The decimal equivalent of $(1111.01)_2$ is _____
- The decimal equivalent of the hexadecimal number E2 is _____
- A full adder consists of _____.
- The number of nibbles, which make up one byte _____
- In a clocked SR flipflop, R is connected with S through an inverter, the circuit is called _____
- The race around condition occurs in JK flipflop if _____.
- A flipflop can be built by using _____
- JK flip flop can be used as Toggle switch when _____
- Flipflop can be used to store _____
- The truth table for an S-R flip-flop has how many VALID entries?
- When both inputs of a J-K flip-flop cycle, the output will _____
- Whose operations are more faster among the following?
- In S-R flip-flop, if $Q = 0$ the output is said to be _____
- What is a trigger pulse?
- The only difference between a combinational circuit and a flip-flop is that _____
- How is a J-K flip-flop made to toggle?
- How many flip-flops are required to produce a divide-by-128 device?
- On a master-slave flip-flop, when is the master enabled?
- With regard to a D latch, _____.
- What is the hold condition of a flip-flop?
- Right shifting the contents of shift register by one bit is equivalent to _____
- Parallel loading of the 4 bit register means _____
- In a shift register, data is entered into register one bit at a time and all data out at a time.
- Minimum number of flipflops are required for MOD-5 counter.
- Any sequential logic circuit consists of _____.
- A decade counter can be designed by _____
- The full form of SIPO is _____
- What is meant by the parallel load of a shift register?
- In a 4-bit Johnson counter sequence, there are a total of how many states or bit patterns?
- How much storage capacity does each stage in a shift register represent?

- A modulus-12 ring counter requires a minimum of _____.
- In digital logic, a counter is a device which _____
- Ripple counters are also called _____
- BCD counter is also known as _____
- The parallel outputs of a counter circuit represent the _____

REMEDIAL COACHING AND MENTORING OF STUDENTS- ZOOLOGY DEPT-

FYBSC AND SYBSC--Academic year -2020-2021

DR.LEENA MURALIDHARAN

The college strives to develop specific competencies of the students that may contribute to their academic and professional success. In this context mentoring of students is immensely important. We have accepted the value of **Mentoring** and the faculty members try to informally mentor the students. Our dept help students to interpret undergraduate programme guidelines and clarify different aspects of curriculum. We constantly encourage students to come forward with their ideas at all stages of development. Students are motivated to expand their skills. We are approachable and help in advancing the academic and professional goals through sharing guidance, experience and expertise.

Our Students come from an increasingly diverse background, therefore we personally interact and try to help them to adapt in a graceful manner. Mentoring supports students' advancement in pedagogical skill to handle stressful or difficult situations well. It also lowers stress level and builds confidence of the students.

As we have students from different strata of society and with the experience of interacting with the students we have developed two different type of coaching to students. This year we had 37 students in FYBsc and 34 in SYBsc. . Two groups are formed :

1) Remedial Coaching:

Introduced the scheme for slowlearners.

Objectives:

- 1) To strengthen their knowledge skills and attitudes in the subjects, the necessary guidance are provided to enable the students to pursue higher studies efficiently and enhance their learning skills .
- 2) To prepare **slow learners** for exams.

Organization of the Scheme:

The students are classified into groups, each group is placed under the charge of Dr Leena Muralidharan ,so as to develop rapport with the assigned group and monitor them.

Method of Teaching:

Remedial Classes are on working days .Remedial coaching classes are completed before the commencement of exams and model MCQ question papers are solved with the students by Dr Leena Muralidharan

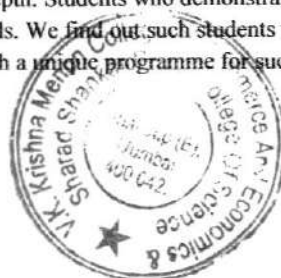

Enhancement Coaching:

Some students not only have the necessary knowledge, skills, and abilities to be successful, but fail in properly utilizing them for academic enhancement. Such students remain in the **Advance Learners Category**. Primarily focus is to help them to achieve even greater goals and plans. It is these high performance students who can bring many laurels to our college from time to time.

Organization of the Advance Learners Scheme:

Students who are intellectually gifted , having a bright ability to think abstractly, an ability to learn and process complex information very rapidly; and a need to explore subjects in depth. Students who demonstrate these characteristics learn differently. Thus, they have unique academic needs. We find out such students through constant observation in the class during the regular lectures. Welcomes out with a unique programme for such students apart from actual teaching in the regular lectures.

Method of Teaching:

- 1) Offering Range of web sites : Advanced Learners are offered a range of web sites and references available to understand the topic in more depth.
- 2) Asking Deeper Questions: Advanced Learners are encouraged to move from the factual to the conceptual through what's up group.
- 3) For promoting research culture: Advanced Learners are also motivated and encouraged to participate in various curricular or research programmes.

Intensive and Remedial Coaching (2020-21)

Report

Date: 24/07/2021

To,

The Principal,
V K Krishna Menon College
Bhandup.

This is to report to you that I have organized Intensive and remedial coaching program for the T Y and F Y students this year by providing them with sample Multiple Choice Question Papers in the subject of B. Economics at the end of every topic in order to prepare them for the online multiple choice examination. Students were able to answer them online and see their score and correct answers instantly.

5. Total No. of participants- No. of students enrolled-**49**; No. of students certified-**40**
6. Brief report –

The Times of India and British Council (TOI) have been conducting “Spoken English for Employability” program for consecutive two years (2019-2020 and 2020-21) for B.Sc. and B. Com. students of our college. This year there were three batches of students. Two batches for Basic Course and third batch for Advanced Course. Advanced Course was newly introduced this year for the students who qualified Basic Course last year. Prior to the starting of advanced course there was a screening test conducted by the senior teachers of TOI on 10.2.2021. Under the pandemic situation the mode of instruction was online through Zoom Meet. The duration of the program was 100 hrs. Throughout the program there were many interactive sessions. Each group was asked to write conversation on particular topic. Curriculum of this program includes many things like how to introduce yourself, how to describe things, how to converse on phone with others, new vocabularies, business card making, acting, games, debate, PPT making etc. Students were taught to face interviews and prepare resume. A mock interview was arranged by every batch on the last day. On 9.4.2021 there was a convocation ceremony. Beside Principal of our college and teachers from TOI and college, Ms Asha the general manager of the programme was also present to grace the occasion. On that day, the entire program was carried out in English by our students. Starting from welcome speech, song, poem, sharing experiences poster talk by PPT and vote of thanks. It was a pleasant surprise to see our students confidently speaking in English. To complete the syllabus and to compensate for the break due to semester examination, batch II of the Basic Course continued after convocation.

Sr. no.	Batches	Mentor	Duration	No. of students enrolled	No. of students certified
1	Basic Course (Batch I)	Mrs Gunjan Singhal	February 1, 2021 to April 2, 2021	16	15
2	Basic Course (Batch II)	Mr Sanjay Gokhale	February 15, 2021 to May 13, 2021	19	11
3	Advanced Course	Mrs Meenu Sharma	February 11, 2021 to April 8, 2021	14	14

7. List of winners (if applicable)- NA
8. Details of resource person: Mrs Meenu Sharma, Mrs Gunjan Singhal & Mr Sanjay Gokhale
9. Details of Field visit/ Project/Industrial visit/Field Project/Internship: NA
10. Program Outcome (Feedback Analysis - Consolidated): This teaching skills and learner centred activities have greatly helped our learners to understand and speak English confidently in a public forum. Students of the advanced batch were more confident about themselves, a step higher than the outcome of Spoken English Tutorial (Basics). It is noteworthy to mention that our learners have given an excellent feedback and have given a very high rating. Twenty three Google feedback forms were analysed and the result is as follows:

Parameters	Excellent	Very Good	Good	Average	Poor
Content	82.6%	17.4%	-----	-----	----
Knowledge	91.3%	8.7%	-----	-----	-----
Clarity	87%	8.7%	4.3%	-----	-----
Presentation Skill	82.6%	13%	4.3%	-----	-----
Interaction in the session	91.3%	8.7%	-----	-----	-----
Time Management	65.3%	30.4%	4.3%	-----	-----
Course Beneficial	100%	-----	-----	-----	-----
Overall	91.4%	4.3%	4.3%		

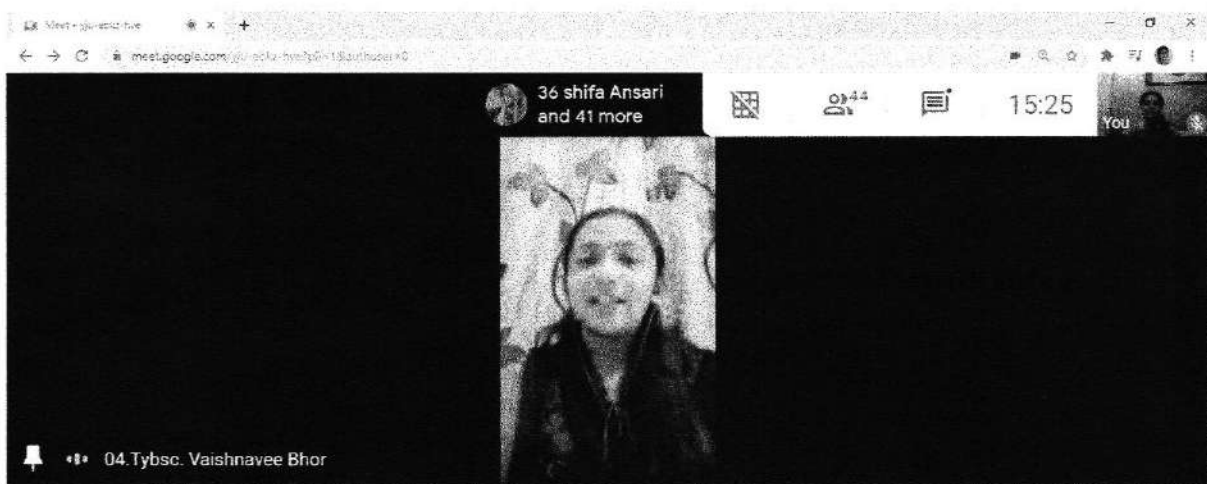

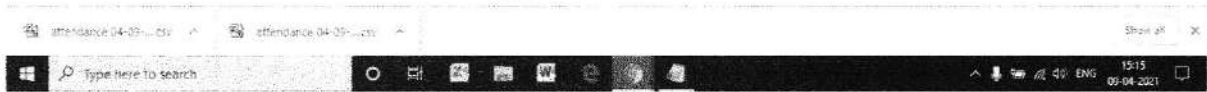

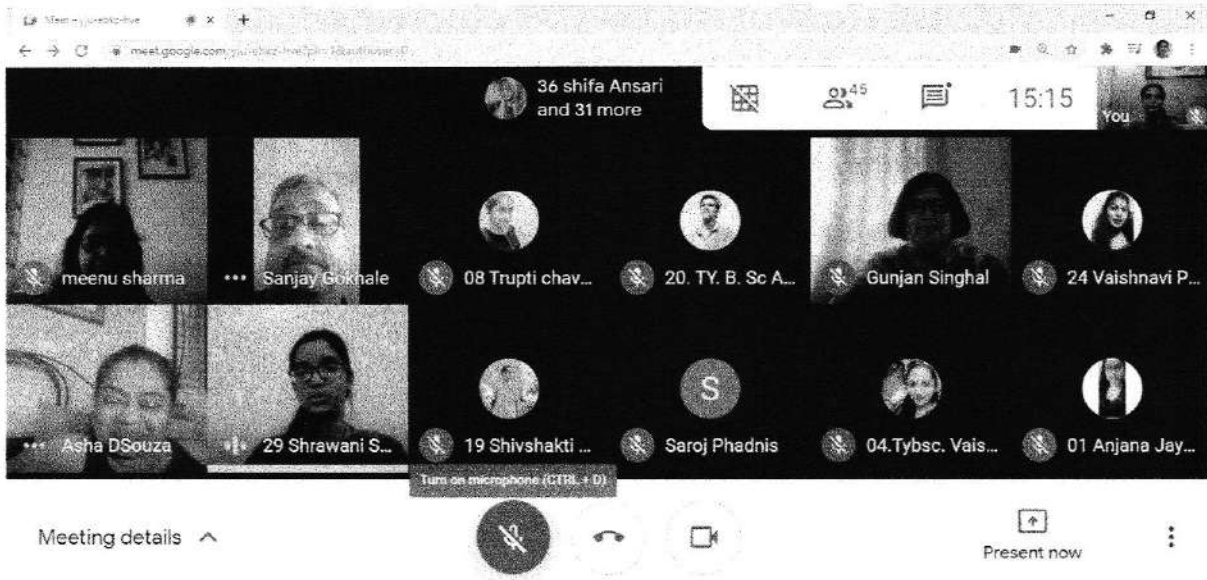

Assessment: Students were assessed on the basis of their attendance and their performance in various activities during the course by Mrs Meenu Sharma, Mrs Gunjan Singhal & Mr Sanjay Gokhale. Out of 49 participants, 40 participants completed the course successfully.

Dear Sir,

We wholeheartedly thank you for delivering the “Teach India Spoken English for Employability”- program organised by V. K. Krishna Menon College in association with the Times of India and British Council from February 15, 2021 to May 13, 2021 to our students.

Your teaching skills and learner centred activities have greatly helped our learners to understand and speak English confidently in a public forum. We sincerely appreciate and acknowledge your expertise and skills in the domain as a resource person. It is noteworthy to mention that our learners have given an excellent feedback and have given a very high rating.

We look forward to your continued association with our institution.

Dear All,

First of all, let me express my heartfelt gratitude to all of you and other team members for conducting the course on "Teach India Spoken English for Employability" for our students. We have been conducting this program from 2019-2020 and this year (2020-2021) also under all adverse conditions we managed to conduct this program successfully in online mode. On this occasion we would like to thank you all for this achievement and I hope we can continue this association in the future too.

The Online Convocation Ceremony for this class is scheduled for Friday, April 9, 2021 at 3:00 pm. I request all of you to grace the occasion with your team. Your presence will be highly motivating to students and us alike.

Looking forward to welcoming you all.

Respected Mam,

First let me express my heartfelt gratitude to you and other team members associated with this program "Teach India Spoken English for Employability". We highly appreciate your collaboration and contribution towards our Institution.

As discussed with you earlier we are interested in conducting the same course "Spoken English Tutorial for Employability" this year also. You may be happy to know that there are almost thirty students who are interested to join the course. Due to online mode it may be difficult for you to accommodate all students in the same class room, so we planned to have two parallel batches. The first batch of 15 students under the guidance of Gunjan mam will start from Feb 1, 2021. The names of the second batch of students (approximately 15 students) are also ready and we are eager to start as soon as you all are ready. In this regard, we request you to send 30 books.

I would also like to share with you that some of the students those who have successfully completed the course "Spoken English Tutorial for Employability" last year would like to go for some advance course in spoken English. This is a proposal from our side, please think about it and let us know if you all can throw some light in this direction.

Looking forward and regards,
Sincerely

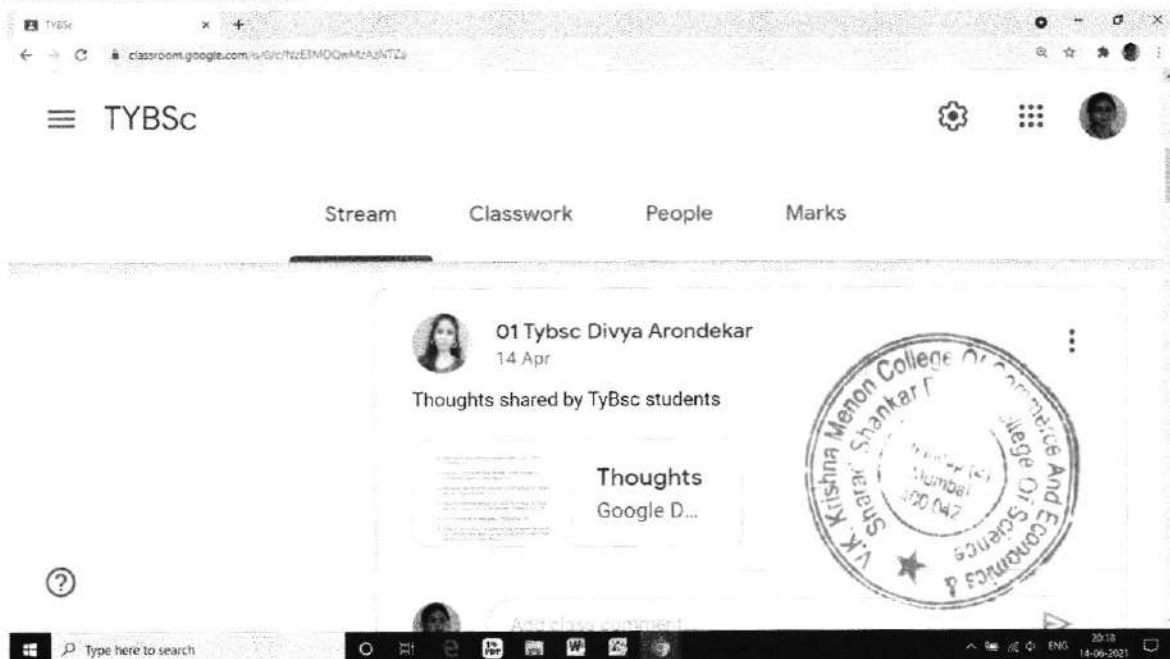

Dr, Kakali Lahiri.

6. Brief report –

This year under COVID 19-Pandemic condition, all lectures were conducted **online** using **Google Meet Platform** and attendance for the lecture was collected by using Extension **Google Meet Attendance**, downloaded from **Chrome Web Store**. Lectures were taken using **laptop**. Each topic was taught either through **PPT presentation** or **sharing PDF**, or in **Onenote using Veikk Pen tablet** (serve the purpose of white board and coloured pens). Syllabus/Study materials/Notices provided to the students in **Google Classroom**. Three **whatsapp groups** (F.Y.B.Sc., S.Y.B.Sc. and T.Y.B.Sc.) were created, where any academic information, doubts, good thoughts, notices, brochures for intercollegiate competitions, webinars etc., were shared. The hand written study materials were scanned using **Doc scanner app** in mobile and shared by **mail** or **whatsapp** as PDF and downloaded on the system. The PDF was finally presented to the students while teaching in **Google Meet Platform** and shared as study material in **Google classroom**. Assignments were given to students in **Google Classroom**. Class tests/Quiz conducted using **Google forms**. **Twelve YouTube videos** on the topics included in the University B.Sc. Syllabus were prepared and published for the benefit of students. T.Y.B.Sc. Preliminary examination conducted using **Google forms**. T.Y.B.Sc. students gave online **PPT presentation** on the topic "Nucleic Acids". Students prepared wonderful **videos** on the project titled "The Ten World Great Chemist and their Contributions" and "The BOON and CRUSE of Chemistry towards Environment". Some students presented the same topic through PPT. Registration and feedback forms for the course "Teach India Spoken English for Employability" were prepared using **Google Forms**. Feedback form for the activity "Thought Sharing" was prepared using **Google Forms**. **Link** for the respective Google form was created and sent to students through whatsapp. Students filled the form and submitted online. All important and large size documents, photographs were stored and shared using **Google Drive**.

By using ICT tools, teaching and learning was extended beyond the four walls of classroom and further this practice had reduced the use of paper drastically. It also reduced the time of assessment and analysis of the feedback forms was done automatically.

STUDENT'S PRESENTATIONS 2020-21

The following students participated in Peer learning sessions. They presented their topics using Power point presentations to their classmates which was followed by a group discussion in the class.

DATE	NAME OF STUDENT	CLASS	TOPIC
3/9/2020 & 4/9/2020	Ms. Saba Sayyed	TYBSc	QUALITY CONCEPTS
28/11/2020 & 2/12/2020	Ms. Shrishti Gupta	TYBSc	HPLC
4/12/2020 & 5/12/2020	Ms. Vaishnavi Bhor	TYBSc	HPTLC
25/01/2021 & 27/01/2021	Mr. Aakash Jaiswar	TYBSc	Ion Exchange Chromatography
14/01/2021 & 15/01/2021	Mr. Divesh Chaturvedi	SYBSc	Electrophoresis

Quality In Analytical Chemistry.

BY: MISS SABA SAYYED
TYBSc
ROLL. NO.- 41

Concept Of Quality :-

- ◆ Quality is the degree or grade or excellence possessed by an item.
- ◆ Quality in analytical laboratory is all about providing the results which:
 - I. meet the specific needs of the customer
 - II. provide confidence to the customer and all others who make use of the results
 - III. represents value for the money spent by the customer.

In order to fulfill these criterion , following factors needs to be consider :-

1. Precise knowledge of customer needs.
2. Acceptable level of uncertainty.
3. Accurate sampling technique to represent the bulk.
4. Appropriate and validated analytical method to meet the needs of customers.
5. Proper statistical treatment and recording of the measurements.
6. Detailed revision of procedure so that one can repeat the analysis if required.
7. Accurate and understandable report to the customer and it should report the answer to the customer's question.

Quality Control & Quality Assurance.

- Many times quality control and quality assurance are used interchangeably which is WRONG.
- **Quality Control** :- Set of operational techniques and activities that are used to fulfill requirements of quality.
- **Quality Assurance** :- All plans and systematic actions necessary to provide adequate confidence that a product or service will satisfy given requirements of quality.
- Alternatively, according to AOAC, the quality assurance are planned activities designed to ensure that the quality control activities are being properly implemented.

Associated problems

1. Implementation at the initial stages, involve substantial amount of money without any return to the organization .
2. It is a continuous process with respect to the changes in all the aspects of running an organization which is troublesome for employees.
3. The system may be adopted but may not deliver due to lack of commitment both on the part of management as well as employees.
4. The existing culture may not permit the installation and the workers may look at it as another management tool to gain control over them.

Good Laboratory Practices (GLP)

- Good Laboratory Practice is a quality system concerned with the organizational process and the conditions under which a study is planned, performed, monitored, recorded, archived and reported.
- Non-clinical health and environmental safety study referred to simply as "study", means an experiment or set of experiments in which a test item is examined under laboratory conditions or in the environment to obtain data on its properties and/or its safety, intended for submission to appropriate regulatory authorities.

GLP Principles

- A. Test Facility Organization and Personnel
- B. Quality Assurance Programme
- C. Facilities
- D. Apparatus, Material, and Reagents
- E. Test Systems
- F. Test and Reference Items
- G. Standard Operating Procedures
- H. Performance of the Study
- I. Reporting of Study Results
- J. Storage and Retention of Records and Materials

Purpose of GLP

- To promote the quality of test data;
- To avoid duplication of research;
- To improve the protection of human health and environment;
- To facilitate international acceptance of test data;
- To prevent the creation of technical trade barriers.

Chemical standards :-

- Chemical standards are the ones whose exact composition is known and can be reproduced any given number of time.

Reference materials :-

- A substance or mixture of substances intended for use as stated in a monograph or general chapter of the European Pharmacopoeia .
- They are the ones that are sufficiently homogeneous and stable with respect to one or more specified properties, which has been established to be fit for its intended use in a measurement process.

- **Primary Reference Standard** :- A standard shown to have suitable properties for the intended use, the demonstration of suitability being made without comparison to an existing standard.
- **Secondary Reference Standard** :- A standard established by comparison with a primary standard.
- **Certified Reference Materials(CRMs)** :- They are widely used for the calibration of measuring apparatus, for the evaluation of measurement procedures and for the internal or external quality control of measurements and laboratories.

• **Grades of Laboratory Reagents** :- Based on purity of laboratory reagents, they are grounded under following categories.

■ **Analytical Reagent (AR):-**

- ✓ Reagents essential for analytical purpose and research work having high purity.
- ✓ The certificate of guarantee give the minimum assay and maximum limits of trace impurities.

■ **Laboratory Reagents (LR):-**

- ✓ This grade consists of pure, extra pure, purified organic and inorganic chemicals having reliable accuracy in Routine Laboratory Analysis.

■ **Guaranteed Reagents (GR):-**

- ✓ It is the ideal quality for laboratory purposes.

HPLC grade : Manufactured specially for use with HPLC instruments.
Grade meets all ACS specifications.

In addition to above mentioned widely used quality reagents following are some of the other categories of laboratory reagents:-

- ✓ A.C.S.
- ✓ U.S.P.
- ✓ N.F.
- ✓ PURIFIED
- ✓ TECHNICAL
- ✓ OR
- ✓ USP/GenAR
- ✓ FCC
- ✓ CP

Motto of quality control:-

No production without measurements, no measurements without records. No records without analysis & finally no analysis without feedback.
