6. Brief report –

The Times of India and British Council (TOI) have been conducting “Spoken English for Employability” program for consecutive two years (2019-2020 and 2020-21) for B.Sc. and B. Com. students of our college. This year there were three batches of students. Two batches for Basic Course and third batch for Advanced Course. Advanced Course was newly introduced this year for the students who qualified Basic Course last year. Prior to the starting of advanced course there was a screening test conducted by the senior teachers of TOI on 10.2.2021. Under the pandemic situation the mode of instruction was online through Zoom Meet. The duration of the program was 100 hrs. Throughout the program there were many interactive sessions. Each group was asked to write conversation on particular topic. Curriculum of this program includes many things like how to introduce yourself, how to describe things, how to converse on phone with others, new vocabularies, business card making, acting, games, debate, PPT making etc. Students were taught to face interviews and prepare resume. A mock interview was arranged by every batch on the last day. On 9.4.2021 there was a convocation ceremony. Beside Principal of our college and teachers from TOI and college, Ms Asha the general manager of the programme was also present to grace the occasion. On that day, the entire program was carried out in English by our students. Starting from welcome speech, song, poem, sharing experiences poster talk by PPT and vote of thanks. It was a pleasant surprise to see our students confidently speaking in English. To complete the syllabus and to compensate for the break due to semester examination, batch II of the Basic Course continued after convocation.

Respected Mam,

First let me express my heartfelt gratitude to you and other team members associated with this program "Teach India Spoken English for Employability". We highly appreciate your collaboration and contribution towards our Institution.

As discussed with you earlier we are interested in conducting the same course "Spoken English Tutorial for Employability" this year also. You may be happy to know that there are almost thirty students who are interested to join the course. Due to online mode it may be difficult for you to accommodate all students in the same class room, so we planned to have two parallel batches. The first batch of 15 students under the guidance of Gunjan mam will start from Feb 1, 2021. The names of the second batch of students (approximately 15 students) are also ready and we are eager to start as soon as you all are ready. In this regard, we request you to send 30 books.

I would also like to share with you that some of the students those who have successfully completed the course "Spoken English Tutorial for Employability" last year would like to go for some advance course in spoken English. This is a proposal from our side, please think about it and let us know if you all can throw some light in this direction.

Looking forward and regards,
Sincerely

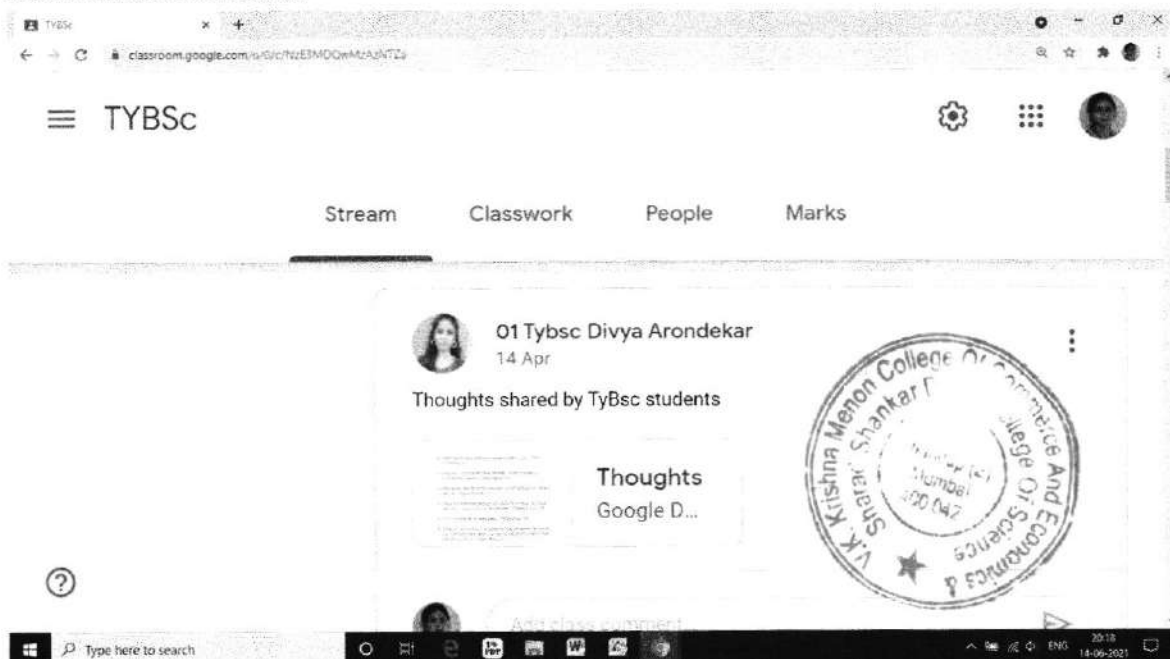

Dr, Kakali Lahiri.

On DAY 1 the discussion was mainly focussed on the importance of chemistry on every aspect of our life, starting from use of toothpaste early in the morning to the use of mosquito repellent at night during bed time. The conclusion of DAY1 session was, throughout the day whatever we use for various purposes are basically made up of chemical substances. Therefore, understanding some basics of chemistry is very important for each one of us. DAY 2 was a continuation of DAY 1 and the objective of the talk was to create awareness about safe handling of household chemicals. The gist of the talk was all chemicals which we use regularly for our personal use or household use should be handled with care to prevent accidents.

The topic of the talk was new for many NSS volunteers as they were B.Com students but the session was interesting and interactive. Many volunteers responded in the chat box and they were happy to learn some new and useful chemistry which they were unaware.
